I. Read the following text and choose the correct answer: [20 marks]

You must not start evaluating the possibilities until you have finished generating them. Why? because there are two sides to the human brain-a creative side and a logical side. It is impossible to get both sides working well at the same time. In this case, you need the creative side first, to **generate** the alternatives, then the logical side, to evaluate each one. There is very rarely only one possible solution to a problem

1. The first part of the process is tothe possibilities.

- a. evaluate b. start c. generate

2. To generate and evaluate the alternatives, you need

- a. Logical side b. creative side c. both sides
